bottom of the sea, and twenty fathoms-or a hundred tion in all directions; thence it passed to B. F. Moore's, and twenty feet—below the sea level. Coast-trade esq., tore down a stable on the lot of the late Ruffin vessels are sailing over our heads. Two hundred Tucker, leveled the chimney and blew in the sashes and forty feet beneath us men are at work, and there of the Standard Office, and with increasing fury are galleries deeper yet, even below that! The ex- struck the beautiful residence of Mrs. Eliza Taylor traordinary position down the face of the cliff of the There, where all was but a moment before a paraengines and other works on the surface at Bottallack dise of beauty, it left nothing but desolation; her is now explained. The mine is not excavated like beautiful green house, one of the finest in the place, other mines under the land, but under the sea.

obey him, sitting speechless and motionless. If the the Peace buildings, on Fayetteville Street, tearing reader could only have beheld us now, dressed in the tin off the roof and whirling it through the air our copper-colored garments, huddled close together in a mere cleft of subterranean rock, with a flame picked up a distance of half a mile. The North Carburning on our heads and darkness enveloping our olina Book Store was also much injured, the chimlimbs. he must certainly have imagined, without neys and a part of the back portico being torn down. any violent stretch of fancy, that he was looking It passed out at the north-east end of the town, back down upon a conclave of gnomes.

earthly noise becomes faintly audible-a long, low, mysterious moaning that never changes-that is felt on the ear as well as heard by it—a sound that might was taken up and carried several yards. The ne proceed from some incalculable distance-from some groes were not seriously hurt, though the house was far, invisible height-a sound unlike anything that completely demolished. It did not extend into the is heard on the upper ground, in the free air of heav- country, and we are happy to say no lives were lost. en-a sound so sublimely mournful, and still so ghostly and impressive, when listened to in the subterranean recesses of the earth, that we continue instinctively to hold our peace, as if enchanted by it, and think not of communicating to each other the strange feeling and astonishment which it has inspired in us both from the first.

At last the miner speaks again, and tells us that what we hear is the sound of the surf lashing the rocks a hundred and twenty feet above us, and of the waves that are breaking on the beach beyond,-The tide is now at the flow, and the sea is in no extraordinary state of agitation: so the sound is low and distant just at this period. But when storms are at their height, when the ocean hurls mountain after mountain of water on the cliffs, then the noise is terrific; the roaring heard down here in the mine is so inexpressibly fierce and awful, that the boldest men at work are afraid to continue their labor-all ascend to the surface to breathe the upper air and stand on the firm earth-dreading, though no catastrophe has ever happened yet, that the sea will break in on them if they remain in the cavern be-

us. We are able to stand upright in the position we now occupy, and, flaring our candles hither and thither in the darkness, can see the bright, pure copper streaking the gallery in every direction. Lumps ious resolution to be approached by few nations and of ooze of the most lustrous green color, traversed by of ooze of the most lustrous green color, traversed by a natural network of thin red veins of iron, appear as evidence practical and domestic greatness as well here and there in large, irregular patches, over as independence, had been the last thing to animate which water is dripping slowly and incessantly in the minds of most of those who have gotten up, in certain places. This is the salt water percolating the United States, the material for the American through invisible crannies in the rock. On stormy days it spurts out furiously in thin, continuous portion of this exhibition. plug of the thickness of a man's leg; there is a hole here, and the plug is all that we have to keep out

of this gallery, throughout its whole length; but it | remains, and will always remain, untouched; the miners dare not take it, for it is part, and a great part, of the rock which forms their only protection against the sea, and which has been so far worked away here that its thickness is limited to an average of three feet only between the water and the gallery in which we now stand. No one knows what might be the consequence of another day's labor with the pickaxe on any part of it.

A GREAT MAN. - George Lippard, in his new work called the Nazarine, thus speaks of President Jack-

"He was a man! Well I remember the day ! waited upon him. He sat there in his arm chair-I can see that old warrior's face with his snow white bair, even now. We told him of the public distress -the manufacturers rained, the eagles shrouded in crape, which were borne at the head of twenty thousand men into Independence Square. He heard us all. We begged him to leave the deposites where they were; to uphold the Great Bank in Philadelphia. Still he did not say a word. At last one of our members more fiery than the rest intimated that if the Bank were crushed, a rebellion might follow. Then the old man rose-I can see him vet. 'Come! he shouted, in a voice of thunder, as his clutched right hand was above his white hairs-' Come with bayonets in your hands instead of petitions-surround the White House with your legions-I am ple at my back whom your gold can neither buy nor awe, I will swing you up around the Capitol, each rebel of you-on a gibbet-high as Haman's."

'When I think,' says the author, 'of that one man standing there at Washington, battling with all the centre of representative population : powers of Bank and Panic, combined, betrayed by In 1790, the centre of representative population was those in whom he trusted, assailed by all that the in Baltimore county, Md., forty-six miles north, and snake of malice could hiss or the fiend of falsehood twenty-two miles east, from Washington. In 1800, howl-when I think of that one man placing his it was in Adams county, Pennsylvania, sixty-four chers. FREAKS OF THE TYPES .- A few days since a lady residing on North Eutaw street, sent an advertisement to a morning paper, headed "A Milliner wanted," but by some mishap it was printed " A Miller wanted." The result was that a worthy miller, seeking employment, called at the millinery store to enquire about the situation, and had scarcely been informed of the mistake which the printer had made and gone away, before another customer was at the door. Thus it was kept up during the morning, until the patience of the proprietors of the store became exhausted, and the mistake was explained for the thirtieth time, in the most laconic manner. Those who were first, just for the fun of the thing, went off and sent their acquaintances to obtain the good situation, and mealy coats were taking their places at the door the remainder of the day -one journey man miller being waked up after he had gone to bed and sent to inquire after the place. If the printer been there and "owned up," he would have found

BEAUTIFUL THOUGHT .- There is but a breath of air and a beat of the heart between this world and the next. And in the brief interval of painful and awful suspense, while we feel that death is present with us, that we are powerless, and he all powerful a state of single blessedness—but who was quite anxof endless life hereafter—we feel. in the midst of the heard one of your old fashioned preachers hold forth. The London Fair .- America in the Back-Ground. The London correspondent of the Philadelphia Bulletin, after describing the grand display making by other nations, says:

As to the United States, we scarcely know what to think of our 'cousins,' as the Times calls us, every thing appears to be so abundant in quantity, and so ordinary in quality, that has been put down as specimens of American enterprise and ingenuity.

"We trust that we shall have no contretemps to record in regard to the exhibition of Yankee industry, but certainly present appearances are much against us, and already we hear much conversational comparison in progress, that can scarcely be cal-led flattering to our national pride, or gratifying to us who know the wonderful energy of the American people. On looking over the world of articles forwarded by the St. Lawrence, the first thing that strikes us is the lack of system in the selection that pervades the whole. It looks as if vehicles had been sent around the United States, and every storekeeper had disembarrassed his shelves of whatever was least likely to be really disposed of, for cash, at Hearing this, we get up to look at the rock above home, and might, being freight free, bring something over its expenses abroad! It looks as if a desire to compel the admiration or wonder of Europe

"We are vexed to say this, but it is the truth .streams. Just over our heads we observe a wooden When every thing shall have been properly arranged, it is possible that the tout ensemble may be more effective. But, as an American, we confess to being from any other land —that stern spirit took its dedisappointed, and we would ask our countrymen Immense wealth of metal is contained in the roof travelling hitherward with such extraordinary nothe Americans, to curb their vanity a little, and to sociating the fury of the elements with sounds far the hearses, to see which should reach the gate of the avoid all Thrasonical boastings, and they will save themselves some mortification.

"London is rapidly filling up with strangers, and Yankee noses are to be seen flattened against the panes of the plate glass windows of every shop in every prominent thoroughfare."

for the year ending 1st of May, 1851: Barques .... 11 Schooners ..... 473

The above statement includes the following foreign vesels. viz: 1 Norwegian Barque; 7 Bremen Brigs and Galliots; 1 Prussian Brig; 2 Russian Galliots; 2 do. Brigs; 14 British Brigs; 9 de. Schooners;

1 Argentine Brig: I French Brig; I Iron Steamer, (Spanish)
The smaller class of Schooners, under 60 tons, not included in above estimate, amounting to about 600.

JNO. S. JAMES, Harbor Master. INFORMATION WANTED,

OF the present whereabouts of a young man about 26 or 27 years of age, named KENNETH McINNIS, who some years since came to the United State, from Sydney, Cape Breton, in order to try the effect of a Southern climate upon his health, which was then delicate. He left Washington N. C., on the 9th of December, 1849, on board a schooner bound for Wilmington, N. C., which is the last that has been heard from him. His family in Sydney are very anxious to find him, being fearful that his health may have failed, or some other accident befallen him. Any person per sessing any information upon the matter will please forward it to this office, or to WM. WALDING, Bath, N. C. Mny 9, 1851.

BACON, Bacon. -6000 lbs. Prime Bacon Hams, Sides GEO, H. KELLEY'S.

TRUNKS.—On account of the rapid sale of that small lot of Trunks, we have ordered and received one dozen more. Selling low, at SCOTT & BALDWIN'S.
